ABOUT US

We are a manufacturer of Indoor and Outdoor furniture and accessories, working with Lloyd Loom,wood, rattan, synthetic wicker, metal, and leather. We produce in three locations within Indonesia; Semarang, Cirebon, and Tangerang, and export them directly all over the world, as well as locally.

Our philosophy couldn't be any simpler – produce furniture at an outstanding quality, at a reasonable price. We employ traditional craftsmen from Indonesia, where the art of furniture making has been passed along many generations.

Decades of experience combined with modern production technology will ensure your furniture is well made, and will last you many years to come.

FACTS & FIGURES

Founded

1977

Headquarter

Jl. Cideng Barat 65B

Jakarta 10150, Indonesia

Production Sites

Cirebon (est. 1996)

15,570 m2

Semarang (est. 2003)

65,000 m2

Curug (est. 2005)

27,000 m2

Production Capacity

Max Allowable 150 x 40ft / month

Customer Base:

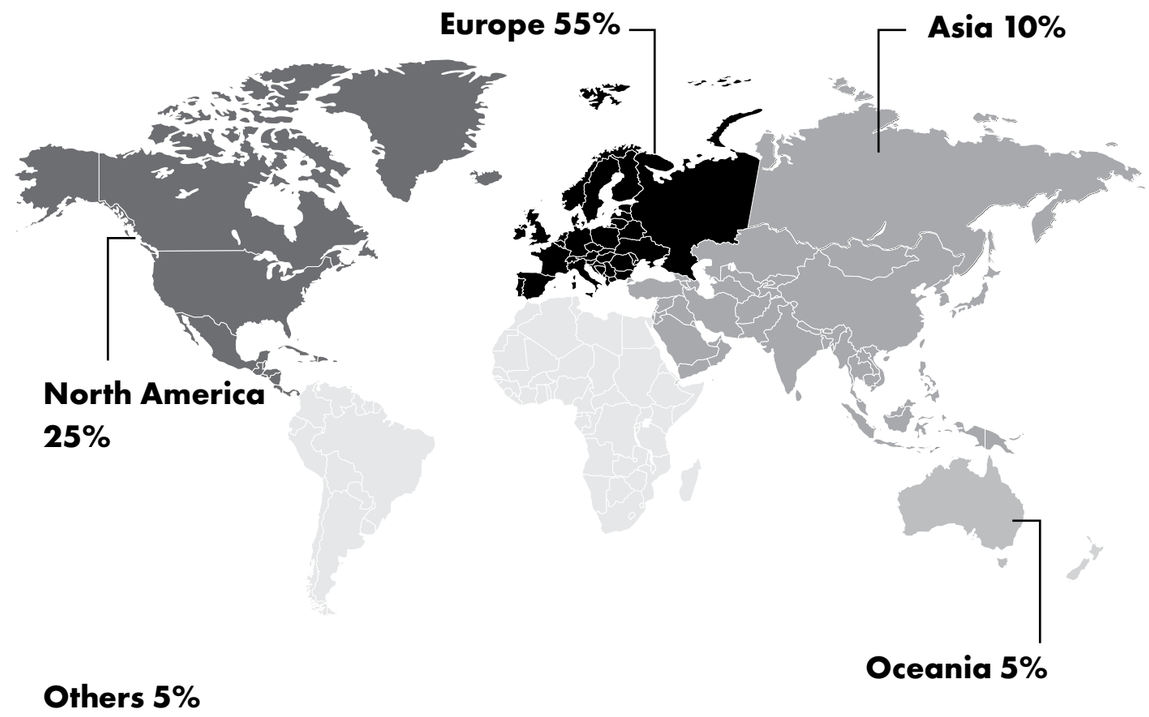
Europe 55%

North America 25%

Asia 10%

Oceania 5%

Others 5%



WHAT WE WORK WITH

Wood

Indonesia is home to teak, which is one of our specialties. That being said, we also manufacture in other hardwoods upon request.

Synthetic Wicker

Made with the latest cutting-edge German technology, the wickers are fade resistant, non toxic, recyclable, and is suitable for outdoor use.

Rattan

Indonesia's well known secret. Durable, natural, and hard wearing – the perfect material to showcase Indonesian craftsmanship.

Aluminium

Strong, light, and infinitely recyclable.

Lloyd Loom

Invented in the 1920s, perfected for the 21st century.

SUSTAINABILITY

Our efforts to sustainability starts at the very beginning.
All of our materials are ethically sourced, and are kind to the environment.

Our vision of being environmentally friendly also extends to our product range.

We strive to make the highest quality furniture, which effectively will extend the lifespan of our products. No planned obsolescence means less CO2 in this planet, which goes back to our vision – earth-friendly.
